

"I HAD TO KILL, AFTER MRS. KELLER, MY DUTY," SAYS MASTER

Twelve witnesses gave testimony before the Middlesex County Grand Jury to-day when the arson charges against Mrs. Mary Keller, the domestic who is charged with firing the house of her employer, were considered.

Expert attorney Hughes, who has conducted the investigation into the mysterious death of six members of the Keller family, testified the government's case. The first jury took up the case at 11:30 a. m. and all of the witnesses were heard within thirty minutes. Those summoned were Lieutenant Herbert Gordon and Frederick Leach and Fred of the Cambridge police, Mrs. Mary Keller of No. 11414 1/2 Highland road, whose house was fired; Mary Hughes, Mrs. Marshall Rice, John and Frank Davis, Andrew J. Lovell, Jr., by whom Mrs. Keller was employed as a domestic; Andrew J. Lovell, Jr., Mrs. Mary Lawson, a domestic, son Arthur Rice.

The first witness, Mr. Keller is charged with setting back place on December 31 and 11 last year, and were of such a suspicious nature that the fire marshal's office conducted a rigid investigation, which resulted in the arrest of Mrs. Keller.

VETERAN MAIL CARRIER HELD FOR BIG THEFT

James F. Tremblay, who has spent twenty-one of his fifty years delivering Boston mail in Boston, was arrested to-day while going his rounds on a charge of embezzling money amounting to thousands of dollars, from letters.

Local sharks, Washington street installment houses and the familiar old secret service routes of grey letters all figure in the story told by Constable John Kelly before Police Inspectors Perkins and Jencks.

A postal letter of the veteran letter carrier's arrest in that he has a wife and ten children, six of whom, a son, a daughter and three daughters, are all in the Harvard Medical School. The principal bond by the mail carrier's arrest is that he should not be seen in the streets of Boston, and that he should not be seen in the streets of Boston, and that he should not be seen in the streets of Boston.

WASHINGTON, March 3.—The eagerly awaited announcement by the forecasters this afternoon that Washington would be treated to a fair weather, with sharp, cool air tomorrow, brought joy to every one of the tens of thousands of visitors here for the inauguration festivities.

Fortune seemed to smile on the smiling President-elect, for the threatened deluge of rain broke upon the gaily-bedecked capital shortly after 1 o'clock to-day, and the throngs compelled to flee for shelter endured their discomfort cheerfully on hearing that the storm would be over late to-day.

ACT HIGH WAR DEATH SCENE

NEW BEDFORD, March 3.—Mrs. H. Howard was choked to death, according to the testimony given today by Dr. Augustus W. Black in the trial of William C. Howard, charged with the murder of his wife.

Dr. Black was called as a medical expert. A hypothetical question of 700 words, embracing all of the facts known about the body of the woman was read to him. Then District Attorney Swift asked:

Q.—Can you give an opinion from those facts as to the cause of the woman's death?

A.—Yes.

Q.—What is that opinion?

A.—She came to death by strangulation or throttling. The nature of the case does not prove that.

Q.—What would you say as to the marks on the face and neck?

A.—The marks on the face and neck confirm my opinion that the woman died as the result of strangulation. I formed my opinion independently of the marks.

flags, eight at the base by a gold ball and eagle. The entire design of the box is a colorful relief in the style of the ceiling, three stories above.

In decorating the bathroom the chief flower used is an azalea of a brilliant scarlet hue. The pillars lining the corridor are also of this color. The walls of about twenty-five feet apart around the vast building, are completely covered with a pattern of red and white plaques. On the second and third floors five very brilliant azaleas, each one a great cluster of flowers, are placed in the center of the line of green. The walls of the building are lined solidly in green.

At the entrance to the Presidential box are exceedingly striking. The sides of the box are set off by masses of evergreens. The roof is covered with a carpet of red and asparagus vines. Through this mass of green are twined red rambling roses.

WIFE'S LIMIT ON BABIES CAUSE FOR DIVORCE

COLUMBUS, Ohio., March 3.—The Supreme Court of this State has solemnly de-

men seems to have more than ten children and her husband wants more, this is the first time this interesting point has ever been adjudicated so far. The assumed jurists have been able to ascertain.

As a result of the decision Professor George Burns of Cincinnati got a divorce from his wife.

The professor is a teacher in the school of Cincinnati. He is the father of ten sons and three daughters. His wife is a mother and believes that the more children the better. She is a very busy woman.

"No more children," she says.

And there the conflict of Mrs. Burns was decided against herself. It led to the divorce.

And she was not the only one who was set up as his reason for obtaining a divorce.

The case was fought year after year and finally the unique question was carried to the supreme court in the State. The court gave judgment in favor of the wife. It said the law books into their own hands and decided a wife has no right to place a limit on the number of children.

And Burns gets his divorce. It is the first time in the history of the State.

RECIPE FOR COLDS

Mix half pint of good whiskey with two ounces of glycerine and add one half ounce Concentrated pine compound. The bottle is to be well shaken each time and used in doses of a teaspoonful to a tablespoonful every four hours.

Concentrated pine compound is a product of the laboratories of the Globe Pharmaceutical Co., Chicago, but it, as well as the other ingredients, can be had from any good drug store.

This is said to be the quickest cough and cold cure known to science and at the same time it acts as a

The Concentrated plus is a special pine product, refined for medical use, and comes only in half-ounce bottles each enclosed in a tin screw-top case which is air-tight and retains all the original strength of the fluid, but be sure it is labeled "Concentrated."
